HISTORY

Our company, based in Canovelles (Barcelona), has more than 25 years' experience in manufacturing and packaging soaps and solid cosmetics for third parties.

We are a second-generation family soap-maker, founded in 1995. The company is still run by the Bernat family and we are currently the only industrial soap factory in Catalonia.

OWN LABORATORY

We have our own laboratory to carry out quality control and test new products in our pilot plant.

We are flexible and adapt to market requests and concerns, developing solid cosmetics tailored to customer requirements.

OUR PHILOSOPHY:

1.

We think hard about how to manufacture the best soap and solid cosmetics for third parties

2.

We are sustainable, reducing our use of water and packaging

3.

We promote solid, natural cosmetics

4.

We take care of the details and develop the best solid cosmetic tailored to each

HIGHEST QUALITY RAW MATERIALS:

Our raw material are th soap noodles, without detergents or phosphates, and we can offer each client the right solid cosmetic shavings, depending on their needs.

We can add different perfumes or cosmetic ingredients, which may be our own or the client's, to our raw materials, following our laboratory's technical guidance.

95% of our raw materials and ingredients are of natural origin.
